DEVELOPMENT SPECIFICS

HISTORY
K-MART PLAZA, South Boulevard was built in several stages during the years 1961 to 1965. The NCB branch bank was added during the mid 1970's. Since that time the subject development has remained basically without change and is now in its 3rd ownership.

PROPERTY
The present owner Lemberg Syndicate-Charlotte Joint Venture acquired this property in 12/87 and desires to upgrade the external appearance of this shopping center and increase the floor area of the existing A & P building as shown on this drawing.

DEVELOPMENT DATA
Present Zoning - B-2 - Required BI-SCD
Present Gross Square Footing Building Area 167,300 s.f.
Planned Additional Building Area 16,241 s.f.
Proposed Total Building Area 183,541 s.f.

REPERMITS
If the requested zoning change is approved the Owner intends to improve the appearance of the subject development by constructing new planting and parking separation area, including the traffic area within the shopping center along the entire length of South Boulevard frontage allowing a wide tree planting strip therein and generally improving traffic flow.

GENERAL PROVISIONS
Right of Way: During the 1970's a 5 foot wide strip of the shopping center's property, along the entire length of South Boulevard was taken for street widening. Since this development has been in existence for over 20 years the proposed new set back requirements along thoroughfares scheduled to take effect on May 1, 1989 should not apply due to the exception cited in Amendment 1631.4.
Driveway Openings: All driveway openings into traffic as shown on the drawing are existing and in some cases will be modified somewhat in the immediate areas within the parking lot.
Drainage: The subject development drains ground surfaces and roof water by means of catch basins and an underground pipe drainage system. Since the proposed new building addition will be constructed over presently existing impervious paved area the surface areas, pervious or impervious, will not be altered. (Section 1603.5 existing impervious areas)

Screen Planting and Trees: The shopping center plan, as drawn, indicates areas and location of screen planting, trees, etc. The City Ordinance covering this item will be complied with. There presently exists a substantial amount of screen planting within the property, especially along the Ingleside Drive line, along with many mature trees previously planted. The plan indicates a new 8 foot wide planting strip along the entire length of South Boulevard frontage set aside for required tree planting.

Signage: The location of existing signage is shown on the drawing. The location of these identify signs will remain where shown. It is possible that one or more of these existing signs may be upgraded or modified, depending on shopping center tenant occupancy.

NON-COMFORMANCE
Zoning classification B-1 SCD calls for a minimum distance from street lines to any building to be at least 35 feet. As indicated on the drawing the rear of the K-Mart building is dimensioned 30 feet to the Ingleside Drive street line which was in compliance in 1963.

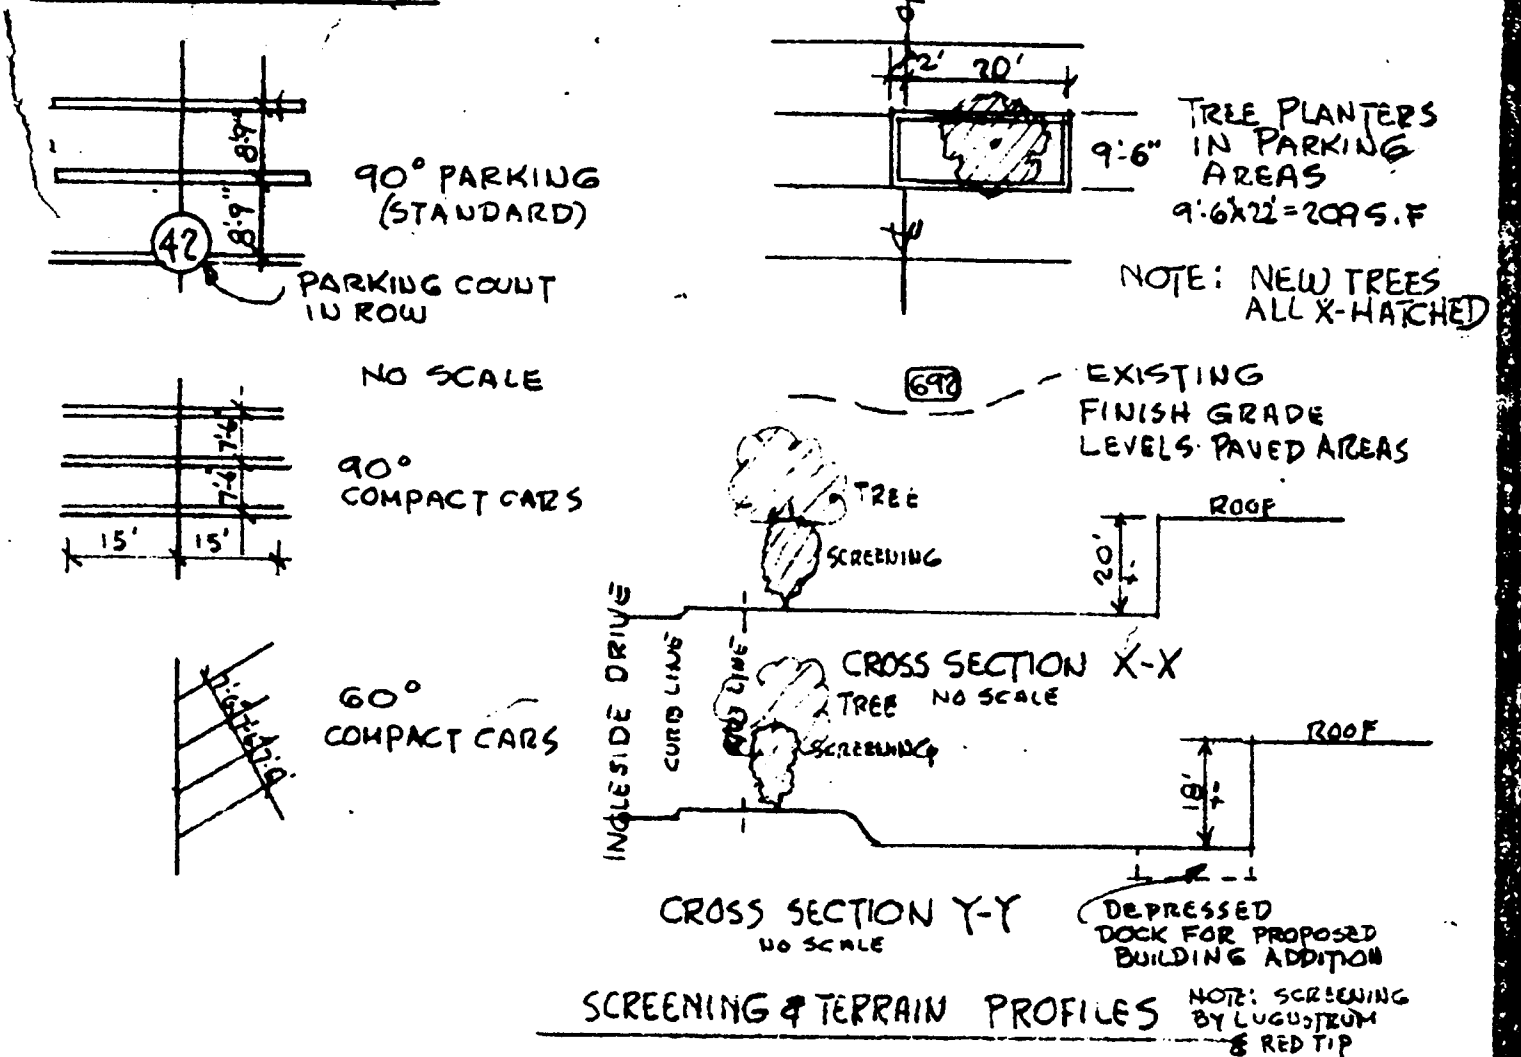

PARKING
The gross and sales areas of the existing buildings and proposed addition along with related parking is shown on the schedule herein.
