		RZ-1				

I. General Provisions

- These Development Standards form a part of the Rezoning Plan associated with the Rezoning Petition filed by Dependable Development, Inc. (the "Petitioner") to accommodate the development of a residential community on an approximately 10.0 acre site located on the south side of Mt. Holly Road, more particularly depicted on the Rezoning Plan (Sheet RZ-1). The residential development is comprised of Tax Parcel Number 03109501.
- Development of the Site will be governed by the Rezoning Plan, these Development Standards and the applicable provisions of the City of Charlotte Zoning Ordinance (the "Ordinance").
- Unless the Rezoning Plan or these Development Standards establish more stringent standards, the regulations established under the Ordinance for the MX-2 zoning district shall govern the development and use of the Site.
- The development and uses depicted on the Rezoning Plan are schematic in nature and are intended to depict the general arrangement of such uses and improvements on the Site. Accordingly, the ultimate layout, locations and sizes of the development and site elements depicted on the Rezoning Plan are graphic representations of the proposed development and site elements, and they may be altered or modified in accordance with the setback, yard, landscaping and tree save requirements set forth on this Rezoning Plan and the Development Standards, provided, however, that any such alterations and modifications shall be minor and not materially change the overall design intent depicted on the Rezoning Plan.
- Future amendments to the Rezoning Plan and/or these Development Standards may be applied for by the then owner(s) of the Site in accordance with the provisions of Chapter 6 of the Ordinance. Alterations to the Rezoning Plan are subject to Section 6.207 of the Ordinance.

II. Permitted Uses

- The Site may be devoted only to a residential community with up to 70 attached dwelling units, together with any incidental and accessory uses relating thereto that are allowed in the MX-2 zoning district. Non-residential uses will not be permitted on the Site.

III. Transportation

- Vehicular access will be as generally depicted on the Rezoning Plan. The placement and configuration of the vehicular access point shown on the Rezoning Plan is subject to any minor modifications required to accommodate final site and construction plans and designs and to any adjustments required by CDOT for approval.
- The alignment of the internal vehicular circulation and driveways may be modified by the Petitioner to accommodate changes in traffic patterns, parking layouts and any adjustments required for approval by CDOT in accordance with published standards.
- The Petitioner shall address Site access as generally depicted on the Rezoning Plan.
- Petitioner shall substantially complete all transportation improvements before the Site's first building certificate of occupancy is issued.
 - Substantial completion shall mean completion of the roadway improvements in accordance with the standards set forth herein provided, however, in the event certain non-essential roadway improvements (as reasonably determined by CDOT) are not completed at the time that the Petitioner seeks to obtain a certificate of occupancy for building(s) on the Site in connection with related development phasing described above, then CDOT will instruct applicable authorities to allow the issuance of certificates of occupancy for the applicable buildings, and in such event the Petitioner may be asked to post a letter of credit or a bond for any improvements not in place at the time such a certificate of occupancy is issued to secure completion of the applicable improvements.
 - Dedication and fee simple conveyance of all rights of way to the City of Charlotte.

IV. Architectural Standards

- The principal buildings used for single family attached (townhome) constructed on the Site may use a variety of building materials. Building materials may include the following: glass, brick, stone, simulated stone, pre-cast stone, pre-cast concrete, synthetic stone, stucco, cementitious siding (such as Hardi-plank), vinyl, EIFS or wood.
- Attached townhome buildings shall be limited to four (4) individual units or fewer per building.
- Each attached single-family residential dwelling unit shall be provided with a minimum one-car garage.
- Sidewalk shall be provided from all residential entrances to the driveway of every unit.
- Pitched roofs, if provided, shall be symmetrically sloped no less than 5:12, except that roofs for porches and attached sheds may be no less than 2:12, unless a flat roof architectural style is employed.
- All townhome units shall include a covered front porch or stoop that are at least 6 feet in depth.
- All corner/end units that face a public or private street shall have a trim band detail in the gable and a combination of windows and/or false windows on the side elevation that faces the street.
- Garage doors visible from public or private streets shall have windows and carriage style hardware to minimize the visual impact.

V. Streetscape, Landscaping and Open Space

- Per Section 11.207 of the Ordinance, at least 10% of the Site shall be set aside as common open space. The required open space will be set aside and improved as required by the Ordinance. The possible locations of the common open space areas are generally depicted on the Rezoning Plan.
- A thirty (30) foot undisturbed buffer will be provided along the Duke Energy Power Easement to the west of the proposed residential development. If existing vegetation is not adequate, this buffer shall be landscaped to meet reduced Class C buffer standards.
- A fifty (50) foot undisturbed buffer will be provided along the common property line with the Karagias Property to the southwest (Parcel No. 03144107). If existing vegetation is not adequate, this buffer shall be landscaped to meet Class C buffer standards.
- A twenty (20) foot setback will be provided along the Right-of-way of Mount Holly Road.
- The Petitioner shall provide a six (6) foot planting strip and a five (5) foot sidewalk along all public streets within the Site and around the perimeter of the Site.
- The Petitioner shall provide a minimum 400 square foot private open space for each townhome unit.
- Site must comply with City of Charlotte Tree Ordinance.

VI. Environmental Features

- The Petitioner shall comply with the Charlotte City Council approved Post Construction Stormwater Ordinance.
- The location, size and type of stormwater management systems depicted on the Rezoning Plan are subject to review and approval as part of the full development plan submittal and are not implicitly approved with this rezoning. Adjustments may be necessary in order to accommodate actual storm water treatment requirements and natural site discharge points.
- The Site will comply with the Tree Ordinance. The locations of the proposed 15% tree save areas are generally depicted on the Rezoning Plan.
- Development within the Post-Construction Stormwater Ordinance stream buffers shall be subject to approval by Charlotte-Mecklenburg Stormwater Services and mitigated if required by City Ordinance.

VII. Lighting

The maximum height of any pedestrian scale, freestanding lighting fixture installed on the Site, including its base, shall not exceed twenty-one (21) feet.

VIII. Amendments to Rezoning Plan

Future amendments to the Rezoning Plan and these Development Standards may be applied for by the then Owner or Owners of a particular Tract within the Site involved in accordance with the provisions of Chapter 6 of the Ordinance.

IX. Binding Effect of the Rezoning Documents and Definitions

If this Rezoning Petition is approved, all conditions applicable to development of the Site imposed under the Rezoning Plan and these Development Standards will, unless amended in the manner provided under the Ordinance, be binding upon and inure to the benefit of the Petitioner and subsequent owners of the Site and their respective successors in interest and assigns. Throughout these Development Standards, the terms, "Petitioner" and "Owner" or "Owners" shall be deemed to include the heirs, devisees, personal representatives, successors in interest and assigns of the Petitioner or the owner or owners of any part of the Site from time to time who may be involved in any future development thereof. Owner or owners of any part of the Site from time to time who may be involved in any future development thereof.
