The legend is organized into two main columns. The left column lists various obstruction types, each preceded by a colored square or line segment. The right column lists slope categories, each preceded by a colored line segment. The legend is divided into two sections: 'Cross Slope' and 'Running Slope'.

*Note: ADA pedestrian issues have been identified and quantified in the ADA Survey Summary. There are instances where multiple issues can be resolved with a single corrective measure. The ADA Compliance Cost Estimate reflects the best estimation of quantities and cost to resolve all identified ADA issues.

**Note: Additional investigation may be warranted when sidewalk running slope issues exist within the right-of-way.

***Note: Excluded items are violations that occur in areas with slope violations and have been excluded from the cost estimate.
