

GENERAL NOTES

1. While the illustrative zoning plan presents a schematic representation of design intent, modification in building sizes and configuration as well as parking design may occur as part of the final design process. Any such adjustment will not change the overall character or nature of the development depicted on this plan and all commitments to the buffer along 29 shall be maintained.
2. All parking areas shall be broken up with landscaping to avoid massing of paved material.
3. Wherever significant natural features are located in the open spaces and buffer zone depicted, these shall be maintained in so far as possible. The buffer area along 29 is to remain as open space and except to the extent necessary to accommodate pedestrian pathways, walls, berms, fences, signs, graphic or utility construction will be restricted from future development. No buildings or parking lots may be placed within the buffer zone.
4. The location of the driveway to the site is identified on the rezoning plan. The final design and location will be subject to approval by MCOOT and the Mecklenburg County Department of Transportation. Construction shall occur in accordance with standards established by the governmental authorities having jurisdiction over their maintenance and operation.
5. Parking shall be provided to meet or exceed Ordinance requirements.
6. Signage shall be allowed as governed by Ordinance requirements.
7. Any permitted commercial use will conform to ordinance section 3111.3.

CHARLOTTE-MECKLENBURG PLANNING COMMISSION
INTER-OFFICE COMMUNICATION

DATE: August 7, 1989

TO: Robert Brandon, Zoning Administrator

FROM: Martin R. Cramton, Jr., Planning Director

SUBJECT: Administrative approval for Petition #89-12(c) Cooper Companies Tax Parcel #099-331-02

Attached is a revised site plan for the above referenced zoning petition. The plan has been revised to relocate a parking lot from the rear of the site to between two proposed buildings. The footprint of the Lodge Building has also changed slightly. Since these changes are minor and do not effect exterior property lines I am administratively approving this plan. Please use this plan when evaluating requests for Building Permits.
