1. The development of the site will be controlled by the standards depicted on this site plan and by the standards of the City of Charlotte Zoning Ordinance. The development depicted by this plan is intended to reflect the general arrangement of proposed uses on the site, but the exact details of the configuration, placement and size of individual buildings and/or site elements may be altered or modified within the limits prescribed by the ordinance as specified in Section 6.206(2) as may be applicable. Minor and incidental changes of detail which do not alter the basic, overall layout and/or the relationships to abutting sites are permitted as a matter of right for the petitioner/developer.
2. All proposed development on the site shall comply with applicable ordinance requirements regarding such things as the number and arrangement of off-street parking, setback/yard dimensions, signage, buffers, screening, open space, landscaping, Tree Ordinance, etc., unless otherwise indicated.
3. Vehicular points of access shall be limited to those shown on the plan. The exact location may vary from that depicted, but shall comply with all applicable design/location requirements of the Charlotte Dept. of Transportation and/or the North Carolina Dept. of Transportation.
4. Maximum building heights shall be limited to one story.
5. Detached business identification signage shall be limited to a monument type sign which shall be a maximum of seven feet in height. Furthermore, the maximum sign area of the sign shall not exceed 32 square feet.
6. As illustrated on the site plan, the site shall comply with buffer requirements (if applicable). In this instance a Class C buffer measuring twenty-two (22) feet in width shall be established as shown on two (2) sides.
7. The proposed development shall be a day care center containing a maximum of 190 children.
8. Dumpster areas shall be enclosed by a solid enclosure with gates.
9. Parking lot lighting shall be limited to a maximum height of 25 feet and shall be designed to be fully capped and shielded to direct light away from adjoining residential sites.
10. Storm water detention area(s) shall not be permitted within the front setback area.
11. A tree survey shall be conducted and provided by the petitioner/developer as part of the building permit process.
12. Wall pack lighting shall not be permitted.
13. The attached illustration depicts the overall architectural design/theme of the proposed building. Minor and incidental changes of detail which do not alter the general design appearance, height of the building, etc. are permitted as a matter of right depending upon the needs and final design criteria of the petitioner.
14. All access/drive aisles, turn around, maneuvering, etc. shall comply with all required, applicable regulations pertaining to the Charlotte Fire Department.
15. Except for trees which are required to be removed due to the location of the driveway, sidewalk and planting strip, all other trees which are four inches or greater in caliper shall be preserved in the front setback. Also, trees in the back area of the site labeled "open space/tree save" which are not part of the improved/developed site shall be preserved.
