Subject: RE: Public Records Request #2032 Tampa Bay Rays Communication - City Manager's Office

Hi Britt,

I wanted to let you know that we received this media request through the public records request portal. Due to the unique nature of the request (targeting a specific phrase and email address across all City employees), I plan to ask IT for help searching for responsive records. When I have received them, I will pass them along to you.

Thanks,

Cheyenne Flotree

Subject: Please vote to save the Midwood International Cultural Center

Dear Charlotte City Council Member,

I am emailing you all to express my desire to have the City Council designate the Midwood International Cultural Center a historic landmark at tomorrow night's council meeting. Not only is the MICC providing a great service to the immigrant community in the Charlotte area, but as a member of Watershed Church, I know first hand that having a community gathering space in the heart of Plaza Midwood provides so much value to the community.

Our community, as well as the other groups that call the MICC home, would prefer to remain residents of the building for as long as possible, something that is less likely to be possible if it is not designated a historic landmark. In the current state of Charlotte, as racial tension and divisiveness across a variety of social, political and cultural lines continue to be front and center, preserving and encouraging organizations that help others, bring people together and pave the way for greater gestures of compassion, reconciliation and community health and wellness are as essential today than they have ever been.

A decision that will force Watershed to move for the 4th time in 6 years will halt the great progress we've continued to make in the Plaza-Midwood community. We finally feel like we are hitting our stride as a church and want to continue the great work, as well as support the other organizations that call the MICC home.

I've personally loved the continued growth of Charlotte in the 5 years since I moved here. However, preserving the history and culture of Charlotte must also be taken into account, lest we lose our identity as a city and find ourselves starting over again and again.

Thank you for your consideration,

James Schwabach, MS
